

## Nikolaos Polyzos

Prof. Dr. N. Polyzos is the Head of the Reproductive Medicine Department at Dexeus Mujer, Dexeus University Hospital in Barcelona, Spain, and a Visiting Professor in the Department of Reproductive Medicine at the University of Ghent in Belgium.

Professor Polyzos is the principal investigator in several large pioneering multinational trials and is a key opinion leader in the field of Reproductive Medicine, particularly in the treatment of poor ovarian responders in IVF programs, the prediction of ovarian response, and premature ovarian aging. He has delivered more than 200 invited lectures at international congresses.

He serves as a Section Editor for *RBMO*, is a member of the ESHRE guideline development group for ovarian stimulation, and has been an Editorial Consultant for the PIER (Physician's Information and Education Resource) of the American College of Physicians (ACP).

Professor Polyzos has published over 150 peer-reviewed articles indexed in PubMed, with more than 4,000 citations and an h-index of 36 on ISI Web of Science. His research interests include reproductive endocrinology, ovarian reserve markers, poor ovarian response to stimulation, and the genetics of premature ovarian aging.
