

Samuel Santos-Ribeiro

Samuel Santos-Ribeiro obtained his medical degree from Nova Medical School in Lisbon and completed his training in Obstetrics and Gynaecology at Hospital Santa Maria, also in Lisbon. He undertook the Clinical Scholars Research Training at Harvard Medical School. He participated in a research program at Universitair Ziekenhuis Brussel in Brussels, where his Ph.D. thesis focused primarily on optimizing endometrial receptivity. He is currently the Scientific Coordinator at IVIRMA Lisbon and an Invited Professor at the Faculty of Medicine of the University of Lisbon. His ongoing research primarily focuses on the relationship between infertility treatments and endometrial receptivity. He also serves as an associated editor for Human Reproduction and is a board member of the ESHRE SIG on the Safety and Quality of ART.
